

Now, no need to carry charging cables

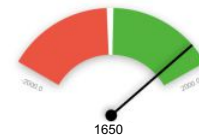

The Jump BB10 is a modern Lithium Polymer battery bank with dual built-in cables for USB-C and iOS lightning charging. There's no need to carry separate cables when you are on the go, and you can directly charge your portable devices right from the BB10. The BB10 supports quick charge outputs to charge as quickly as possible. The design is sleek and elegant with a soft touch rubber coating finish.
