

BB10 USER INSTRUCTIONS

Thank you for purchasing the JUMP BB10 battery bank. Always follow basic safety precautions when using electrical appliances. Read all instructions carefully; Please keep this instruction manual for easy reference.

- 1 Output - USB-C Out - 5V 3A or 9V 2A or 12V 1.5A
- 2 Status button
- 3 Battery level/charging indicator
- 4 Input - USB-C In - 5V 2A or 9V 2A
- 5 Output - USB - 5V 3A or 9V 2A or 12V 1.5A
- 6 Input - Lightning In - 5V 2A or 9V 2A
- 7 Input - Micro USB In - 5V 2A or 9V 2A
- 8 Output - Lightning Out - 5V 2.4A or 9V 2.2A

LED Status Indicator

Charging Level

1-4 all lit up	Fully charged
1 blink	0% - 25%
2 blink	26% - 50%
3 blink	51% - 75%
4 blink	76% - 99%

Battery Level

1-4 all off	Empty
1 blink	0% - 25%
2 blink	26% - 50%
3 blink	51% - 75%
4 blink	76% - 99%

Charging the BB10

The BB10 must be charged from a 5V 2 to 3 A charger with a 3-4 hours charging time. You can select between three charging inputs, i.e. USB-C In, Lightning In, or Micro USB In. Do not charge from a PC or Laptop USB port, as these generally do not have sufficient current for charging purposes.

Built-in output cables

The built-in USB-C and Lightning cables conveniently charge devices with corresponding connectors. The built-in cables support fast charging with high current capability. After charging, the connector must be re-seated into the receptacle for safe and easy transportation.

USB output

The USB output supports fast charging and allows you to plug in a USB cable to charge suitable devices.

WARRANTY INFORMATION

1. Sanji Electronics (Pty) Ltd offer a limited warranty for this product against any defects in material and workmanship for a period of 24 months from the date of purchase by the end user/consumer. The conditions of the warranty are as follows:

2. The warranty is only valid upon presentation of the original receipt (from dealer/retailer) by the original purchaser with the product to be repaired or replaced.
3. The warranty is void if the serial number, date of purchase and label have been removed.
4. The warranty does not cover damage or product failure resulting from normal wear and tear, physical abuse, improper installation, misuse, modification or repairs by unauthorized third parties.
5. We do not assume responsibility for any loss or damage incurred during shipment or as a result of a force majeure.
6. We are not liable for any incidental or consequential damages arising from the use or misuse of this product.
7. All warranty claims are limited to repair or replacement of the defective product and at the sole discretion of Sanji Electronics (Pty) Ltd.
8. If we repair or replace the product, the product will be covered for the remaining time of the original warranty period.
9. Consumable components such as batteries are not covered by the warranty.

Specifications:

Built-in USB-C and Lightning cables

Input 1: Micro USB 5V-2A/9V-2A

Input 2: Lightning 5V-2A/9V-2A

Input 3: Type-C 5V-2A/9V-2A

Output 1: USB 5V-3.0A/9V-2.0A/12V-1.5A

Output 2: Type-C Cable 5V-3.0A/9V-2A/12V-1.5A

Output 3: Lightning Cable 5V-2.4A/9V-2.2A

Charging time: 3-4 Hours

Charging Cycles: +500

Battery: 10000mAh Class A Lithium Polymer

Temperature Range: 0°C ~ +45°C

Unit size: 135*70*13.5mm

Unit Weight: 175g

Sanji Electronics (Pty) Ltd, 39 Kyalami Boulevard,
Kyalami Business Park, Gauteng, South Africa.

Status Button

Press the Status Button to check the charge or discharge status of the battery. The LEDs will switch on by pressing the button, and you will see the battery levels. The LEDs will auto-switch off after a while, or you can double-press to switch them off immediately.

Safety Low Voltage Shutdown

The BB10 should be fully charged after use and at least every six months when not in use. If left without any charging for an extended period, the internal battery voltage will drop, and if it falls below the safety threshold, the internal shutdown will activate. Once activated, the internal shutdown will prevent the product from being used.

DANGER

If not handled properly, there is a risk of death or serious injury and the risk is high.

WARNING

1. Read the instruction manual carefully before using this unit.
2. Caution while using this unit.
3. Not to be used by young or infirm persons without supervision.
4. Only charge the BB10 with 5V Max 2-3 A chargers.
5. Do NOT allow the product to get wet.
6. Do NOT immerse the product in water.

7. Do NOT operate the product in explosive atmospheres, such as in the presence of flammable liquids, gases or dust.
8. Do not put it in the fire or heat it in a microwave or oven device.
9. Do not use in blankets, quilts, backpack and other areas with poor ventilation.
10. Do NOT modify or disassemble BB10. Only an authorized repair technician may repair this unit.
11. Do NOT expose product to extreme heat or fire.
12. Do NOT drop unit. If unit receives a sharp blow or is otherwise damaged in any way, have it checked by a qualified battery technician.
13. Do NOT store in locations where the temperature may exceed 40°C
14. Charge only at ambient temperature between 0°C and 30°C.
15. Do not charge external devices at the same time from the mobile battery.
16. If this unit is leaking liquid, dispose of it at a proper recycle facility immediately.
17. Under extreme conditions, battery leakage can occur. If a liquid is noticed coming from product do not handle with bare hands. In case of skin contact wash with soap and water immediately. If liquid comes in contact with eyes rinse eyes with cold running water for at least 10 minutes and get medical attention immediately.
18. Product contains lithium based battery. At the end of the product life dispose of the product according to local regulation.
